

SEMINARJOURNEY THROUGH A LAND OF FORGIVENESS

25th of July – 1st of August 2010 - 7 days

A group with 26 people with Ana Pogacnik
in German and English

Begin at 3 PM on the 25th of July 2010 in Bad Meinberg (after the "2. International creative gathering of life-net")

End in the evening on the 1st of August 2010 in Bad Meinberg

A journey through the "Land of forgiveness": Germany has played a very special role in the world history, which one can still strongly perceive. Many memories and imprints in people and in the landscape are still not „digested“ and are in that way still present. The force that was at that time often misused to obtain the predomination is at the same time the power that can bear the deep forgiveness today. In this way Germany holds an important role in the time of changes. Forgiveness can rise only out of the unconditional love and that's why it carries the impulse for the transformation in to love. To be able to carry on this impulse, it needs to go through the process of recognition and process of letting go.

The journey in the outer landscape will serve us as a mirror for our inner journey.

We will let the impulses of the landscape influence us through the resonance. In that way we will experience and awake different aspects of our own deepest Self.

To be able to support the inner peace, we will search also for different ways for forgiving within us.

It will be a journey that will lead us in the inner peace through the transformation with the power of forgiveness.
