

**ANA POGACNIK'S
NORTHERN CALIFORNIA OFFERINGS
September 3-8, 2008**

Ana Pogacnik, international Geomancy instructor, founder of Schule "Wieder Sehen" (School "To See Again"), accomplished musician and composer, and co-author of the book How Wide the Heart: The Roots of Peace in Palestine and Israel, will return again to Northern California this fall, to offer a series of opportunities to learn more about the partnership that can exist between humanity and the Earth at this auspicious time in history.

Wednesday, September 3 Rudolf Steiner College, Fair Oaks, CA

**AN EVENING TALK AND CONCERT
WAKE UP! THE EARTH IS CHANGING**

Ana will open our eyes to the earth changes under way. She will show how our conscious awareness of this helps us in seeing the parallel process to these outer shifts in our own being. Our physical body is connected to the body of the earth herself and this change is a gift in which we are invited to partake.

This lecture will conclude with musical improvisation by Ana.

Monday, September 8, Soutree Farm, Nevada City, CA

**A ONE-DAY WORKSHOP
OUTER LANDSCAPE AS A MIRROR OF THE INNER LANDSCAPE**

We are a microcosm of the Earth, and in that way the Earth itself. We are one cell of the Earth and through that we carry information about the Earth as macrocosm. With our presence, with our being, and with our activities we mirror the landscape and at the same time the landscape is a mirror of our selves.

During the seminar we will visit and come in contact with places that are important for Soutree Farm and the surrounding landscape. Through individual exercises and different techniques of group singing, rhythmical movements, special dances, and guided meditation, we will search for hidden and often already forgotten qualities of this place/landscape. Through these activities, we will uncover deeply imprinted memories and solve many riddles that the landscape is carrying and is offering to us as the mirror through which we can recognise, understand and heal many unsolved questions about ourselves and our lives.

**FRIDAY EVENING SEPTEMBER 5-
SUNDAY AFTERNOON SEPTEMBER 7
***Headlands Institute/Golden Gate Recreation Area
Marin County, CA*****

Ana will offer a more in-depth version of the one-day Nevada City workshop, and the group will work with the landscape of the Redwood Creek Watershed in partnership with ranger Carolyn Shoulders.

*Details for all of these workshops will follow.
