

Geomancy Schooling Course with Ana Pogacnik

A Journey of Earth Healing Through Personal Transformation
A Deeper Cognition of Landscape

Drawing by Lori Cockburn

Session I: March 6-9 Communicating with Ourselves and The Landscape

We will uncover our own tools for perceiving the landscape and become aware of the barriers that prevent us from staying in continuous communication with ourselves, the landscape and other worlds. Through various exercises, we will experience the angelic presence in us and how it manifests in the landscape.

Session II: June 20-22 Outer Landscape Mirroring Inner Landscape

We can compare the vital-energy level of the landscape to the chakra system and meridians of our body. We will get to know different qualities and energies of the landscape and the organs of the Earth through various exercises. Through this deep contact we will mirror ourselves in different aspects of the landscape and discover our own inner landscape.

Session III: October 3-5 Being Present to the Earth and Our Life

We will continue discovering the vital-energy level of the landscape which we began in June. Through this deep contact with places and qualities, and mirroring ourselves in the landscape we will observe the inner patterns that may hold us back from being fully present in our life. Through being together in the group in the landscape we will experience different techniques on how to work with the landscape.

Ana Pogacnik has worked in different areas around the world since 1990 with Geomancy through assisting her father Marko. In 2002 Ana developed the above educational program, where she works with groups in new ways to support the values of Earth, Landscape and Life.

Location: Toronto, Ontario, Canada and surrounding area.

Each schooling session will be in a different location TBA.

Hours: Thursday (Session I only) 7 - 9, Fridays 7 - 9

Saturdays 9 - 5, Sundays 9 - 12
