

Ana Pogacnik born 1973 in Slovenia has lived in Munich since 2005. She first studied piano at the Conservatory in Ljubljana and then later archeology at Ljubljana University specializing in prehistory. Since 1990 she has worked with geomancy and lithopuncture through assisting her father Marko Pogacnik. In 2002 she started developing her own educational program called “A Deeper Cognition of Landscape.”

## RE-VISION

**Understanding and Practising Geomancy with  
Ana Pogacnik, Munich, Germany**

“We are a part of the earth, in some way we are a microcosm of the earth, maybe one cell and as such we may carry the whole earth inside us.” Ana Pogacnik

**Evening lectures and musical improvisations:**

**Wake Up! The Earth is Changing - Wednesday June 6, 8 pm**

**Human Beings: The Bridge Between Two Worlds -**

**Thursday June 7, 8 pm**

**Workshop:**

**Outer Landscape as a Mirror of the Inner Landscape - June 8 - 10**

**Offered through Arscura School for Living Art**

Lectures and musical improvisation:  
**WAKE UP! THE EARTH IS CHANGING**

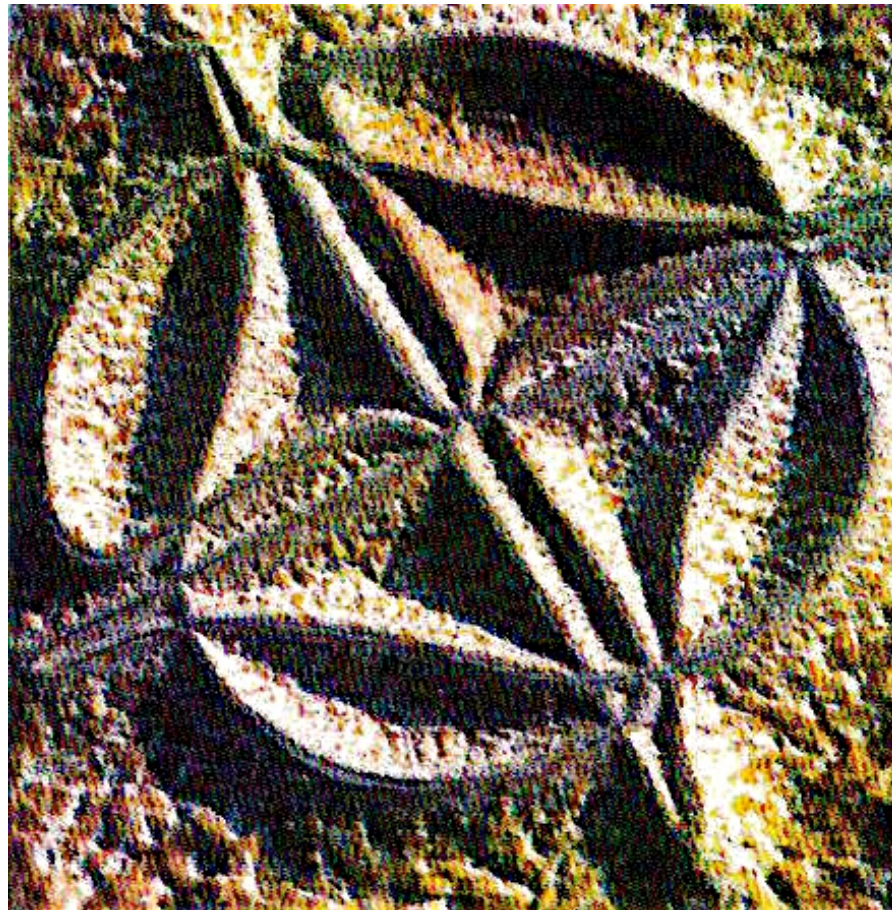

Ana will open our eyes to the earth changes under way. She will show how our conscious awareness of this helps us in seeing the parallel process to these outer shifts in our own being. Our physical body is connected to the body of the earth herself and this change is a gift that we are invited to partake in. This lecture will conclude with musical improvisation by Ana.

Wednesday, June 6, 2007 at 8 pm

**HUMAN BEING: THE BRIDGE  
BETWEEN TWO WORLDS**

Ana will help us realize that the angelic world is not distant and inaccessible, but eager to connect with us and help us. She will tell us what it takes for humans to learn and understand the angelic language and thereby learn to cooperate with the spiritual world and fulfill, more deeply, our role in the universe.

Thursday, June 7, 2007 at 8 pm

Workshop:  
**OUTER LANDSCAPE AS A MIRROR OF THE INNER LANDSCAPE**

Ana will develop a phenomenological path to understanding earth changes and their corresponding effects on our inner landscape as body, soul and spirit beings.

In this two and a half day seminar we will re-vision particular places. Among them will be the landscape of the community at Bathurst Street and Rutherford Road. This location marks also the meeting point of three townships, those of Richmond Hill, Thornhill and Vaughan, north of metropolitan Toronto.

We will truly 'see' these places in a new way and then be guided to exercises and practices, movement, singing and art form, that may reveal, transform and heal long forgotten qualities of this landscape. We will uncover memories and solve riddles that this space carries. Our intention

will be to create a communal ritual for this place of great importance to us and celebrate its uniqueness for the entire region.

Participation in this workshop will develop new capacities to help heal our own home, landscape and community.

Fri. Jun 8, 8-10 pm; Sat. Jun 9, 9 am-5 pm; Sun. Jun 10, 9 am-3pm
