

2nd international creative meeting of the life net
"Vision of Personhood - a new Geoculture"
21. - 25. July 2010 in Bad Meinberg, Germany

*„If someone dreams alone,
It is only a dream.
If people dream together,
It is the start of a new reality “
Helder Camara*

Soon it will be 2 years since we came together for the first international meeting in Slovenia. At that time the LifeNet itself was in our focus with the questions: who are we as a net, how do we connect as a net, how can we function, what is our vision as LifeNet etc. With these questions we went through deep processes and reached a new base - a new platform, even if we couldn't experience it consciously. With the experience we gained and the following process of maturation and growing, hopefully we all learned a lot.

So the wish for a further step raised, a track, which could bring us all further up. During the second meeting we would like to search a vision, that we would like to live: as a friend of the LifeNet, as a friend of the earth, as a human being. The time gets more and more intense and the apperception of the change of the earth is increasing. To be able to follow the change of the earth, we need a joint vision together with the earth. A vision, which brings a sense to human life on earth back again.

We would like to find out, as LifeNet, how we can support this vision and live it. We would like to feel, what the unique attributes and qualities of Geomanthy and the LifeNet are. We can see what we can bring into society and the world, to accompany the growing of a new culture, to shape and to form it. Together we would like to search the way, how we can support the ongoing process and the development even more active and with more presence as LifeNet.

Who receives this invitation?

To be able to handle such deep discussions, considerations and exchanges, we need previous knowledge in Geomanthy, about the work with the landscape and the earth. Therefore we invite all cooperating persons in the LifeNet (LifeNet, VITAAA) and in addition all who already work in the range of Geomancy and are interested in networking.

Why „creative meeting“?

It will not be a conventional congress in Geomanthy, where you receive an overview about all the different directions in Geomanthy and to earn knowledge. It will be an exchange on a deeper level, not only on the level of words, but to create a common spaces, in which new ideas and visions can be born. A space which only can arise in the freedom of creativity.

Place of the meeting

Bad Meinberg is very close to the well known geomantic place „Externsteine“. There are many different aspects and interpretations about this place. This landscape allows an extraordinary deepness to the connection with the earth and the cosmos. This place and the whole landscape manifest a special energy which can be described as the energy of the new time. Therefore this place itself will support us very much.

Program

For the whole frame of the meeting this time a team of Schule „Wieder Sehen“ together with Marko Pogačnik will be responsible. This is needed for this large group (we expect between 150 and 180 persons), for all the discussions and exchange of experiences.

We will work in small groups and also partly in larger ones. We take care, that there is enough time for experiences next to all the talks and discussions. We would like to give space deliberately in such a way, that exchange and face to face discussions are possible.

On Friday (23rd July) the whole day we will be on a journey by bus within the neighbourhood. (most probably Externsteine - Paderborn - Bad Pyrmont).

As you can see in the registration form, we are widely open for proposals, wishes and ideas.

Time frame

Adjacent tour

Like the last meeting in Slovenian, this time a journey through Germany is offered (*“A journey through the country of reconciliation”*). The tour will bring us within 7/8 days (after 25th July Afternoon) to different, important places for the county: from the cosmic anchoring point in Emsland in the Taunus mountains near Frankfurt, to the heart centre in Nürnberg up to the life temple in Dachau etc. It will be a tour through Germany and we hope that the experiences and the inner process will lead us to ourselves.

Germany played a special part in the worlds history, which even nowadays is notable very strongly. The energy, which at that time was often misused to yield the power, is at the same time an energy, which nowadays can create deep reconciliation. Therefore Germany has an important part in the time of transformation. The journey is organised and guided by Ana Pogačnik.

There are only 25 places for this journey. For this reason persons from far abroad will have the precedence. Thank you for your understanding.
