

SCHOOL OF GEOMANCY

With Ana and Marko Pogacnik

The two-year teaching on geomancy and personal growth is composed of six units. The three units of the first year are open for everybody interested to attend. The three units of the second year will come into being if a group of students will be formed who would be interested in a more continuous study.

Ana and Marko Pogacnik have, during the last 15 years, developed an original approach to geomancy, where working with vital forces, elemental beings, and centers of the landscape is linked to the awakening of the personal sensitivity and inner evolution of the participants. As a result, participants have the possibility to find their own way in perceiving and interpreting phenomena within and around them without being attached to a certain technique or belief system. The basis of the teaching is a holistic way of perception that includes body, mind and heart, coupled with the freedom of loving the Earth and Universe.

The first three programs units will be as follows:

1. Unit: March 16 - 19, 2006

Inner Perception, Angelic Presence

With Ana Pogacnik

Location: Camp Greenville
Greenville, South Carolina
Host: Lance Howard

There will be two components, which will flow parallel to each other:

The first one is the discovering of our own tools for perception and also the barriers that are preventing us from staying continuously in inner communication with our selves, with the landscape and with the other dimensions and worlds.

One such world is the angelic world, the “angelic ocean”, and this will be the second subject of this unit. We will learn about the angelic presence in us and how it manifests in the landscape. Through different exercises we will experience how we can find such places in the landscape and get to know how we can work closely with this kind of energy.

2. Unit: July 6 - 9, 2006

Multidimensionality of a Place

With Marko Pogacnik

Location: Spirit Fire Retreat Center
Leyden, Massachusetts
Host: Kathleen Grandison

Each place is composed of many layers of reality. The purpose of the workshop is to experience those different dimensions, first of all the vital energies and power centers of the given place, then the sphere of elemental beings and, finally, the spiritual dimension of the landscape temple. Corresponding exercises of perception will be taught.

3. Unit: September 14 - 17, 2006

Vital Energy Systems

With Ana Pogacnik

Location: Minnesota Waldorf School
St. Paul, Minnesota
Host Christina Beck

We will start to discover the vital-energy level of the landscape, which we can compare with our chakra system and meridians of our body.

Through different exercises we will get to know different qualities und energies of the landscape and the organs of the Earth. And through this deep contact, we will be mirroring our self in different aspects of the landscape and, in this way, be discovering our own inner landscape.

We will also get to know various techniques of how to work with the landscape and places. In that way we will bring into movement not only the blockages and the qualities of the outer but also of the inner landscape.

There will be a possibility given, to practice and discover also at home in the time between the units and to stay in contact (per E-Mail or post) with Ana and Marko. In this way, it will be possible to get a reflection and help from them.

4. Unit: March 28 - April 1, 2007

Language of the cosmogrammes

With Marko Pogacnik

Location: Atlanta

This course offers experiences of different forms of universal language, but focuses then on cosmogrammes as practical possibility to convey a visual message to beings of nature or consciousness of a given place. Different places in the vicinity of Atlanta and in the city will be explored and experienced. Participants than will use different tools to do geomantic healing work there. One of them would be to create a cosmogramme for a chosen place, to meet a specific need of that place. Drawing will be practiced as a tool for this purpose. The capacity learned can be used later while working with other places, or while taking care for one's own place.

5. Unit: July 20 – 23, 2007

Vital Energy Systems II

With Ana Pogacnik

Location: Vermont

We will continue with discovering the vital-energy level of the landscape, which we've started already in the 3. Unit (*Vital Energy Systems I*).

With different exercises we will get to know different qualities und energies of the landscape and the organs of the Earth, that we can compare with our chakra system and meridians of our body.

Through this deep contact with places and qualities, we will be mirroring our self in different aspects of the landscape and, in this way discovering our own inner landscape. We will continue also with inner work and observe the inner patterns, that are holding us back and unable us to be fully present in our life.

Through being together in the group in the landscape we will experience different techniques how to work with the landscape and places.

6. Unit: Oktober 10 – 14, 2007

Decoding the totality of a given place

With Ana Pogacnik

Location: Arizona or Michigan

In this unit we will accede to the place as a concluded integrity. We will discover its different levels and aspects and search for its primeval power and also its weaknesses and imprinted patterns. Through this research work we will touch the essence of the place and unknot its riddle and in this way we will come nearer to its deepest truth.

Through the work with the different places, energies and aspects in the landscape, we will also touch our own primeval power and essence and get to know better our deepest inner truth.

We will also continue with the work with the inner vision of our life and look how we can bring it even more into reality and in that way to be able to live it already today.

DAILY SCHEDULE:

Each unit will begin at 7:00 PM on the Thursday evening with a talk. Each of the subsequent days of that unit will begin at 9:00 AM. The program of each unit will end on the Sunday at 12 Noon.

REGISTRATION INFORMATION:

COST: The Cost for the three (3) units: is \$750 (Reflects \$250 per unit). Room, meals and transportation are the responsibility of the participant. **Payment deadlines are given below.**
